

ESP Experiment

Choose one member of your group to be a “sender”. The sender will have four cards each of a different suit. He or she will shuffle these four cards and then look at the top card being careful not to let anyone else see it. The sender will then concentrate on the suit of this card: Hearts, Diamonds, Clubs, or Spades. Each member of the group will try to “receive” the message and will write down what he or she thinks the suit chosen was. The sender will then write down which suit was actually chosen.

Repeat the shuffling and sending ten times. At the end of the ten trials the sender should reveal the choices and each person will determine his or her score as the number of correct answers.
